

SCOTT MARSHALL

AND HIS BANDS: MARSHALL'S HIGHWAY * THE HILLBILLY SOULS

Award-Winning Singer/Songwriter

Scott Marshall, along with both his bands, have received record-breaking numbers of nominations and awards including: Outstanding Band, Outstanding Album, Outstanding Singer-Songwriter, and Entertainer of the Year. (See list on page 2.)

The Bands

Both bands, **Scott Marshall & Marshall's Highway** and **Scott Marshall & The Hillbilly Souls**, have earned a reputation for

delivering nothing less than authentic and sincere doses of

heartfelt, feel-good, foot-stompin', thought-provoking, Northern-grilled, Southern-fried, and lightly-smoked American roots music.

Along with his cast of characters, their ability to combine

American Rock, Rebel Country, Blues and Bluegrass with authority and conviction is a recipe that has people of all ages, titles, and musical tastes, cheering and coming back for more.

About Scott

Scott Marshall hails from the Appalachian hills of eastern Pennsylvania. From his earliest memories, music was the center of Scott's life. Influenced by numerous genres: County, Bluegrass, Blues, Rock, and Gospel, Scott Marshall has developed a style that is as much his own as it is all American. It doesn't matter what label you try to put on it, the bottom line is that it's hand-forged, heart-filled, music with a little something for everyone.

With a recipe all their own, they're delivering the goods just as described, with both authority and conviction. Faith, Family, Country, with a few shots of sincerity that goes down easy and helps the soul shine, but has enough fire and passion to kick start any heart.

Scott and his bands have been receiving accolades, receiving record-breaking numbers of award nominations and awards, and they continue to leave a lasting impression of honest to goodness everywhere they go.

Bottom line is that is finding favor with crowds of all ages and musical tastes with his voice, his songs, and his heart, while each band's musical abilities cap off the perfect presentation.

Audience

Scott has a significant fan base and social media presence. His music attracts a vast, multi-class audience, because he himself is a rags to riches, back to rags, then somewhere in between story, and reflects that in his music. Having performed for audiences from 10-10,000, and scalability in the size of his bands, he is an excellent choice for nearly any venue.

After a successful debut stretch with a small Independent Record Label, Indie Artist Scott Marshall now finds himself taking the all the necessary steps to get to the next level by extending himself and exploring the different opportunities that present themselves in the vast and ever changing music world. First as a songwriter and recording artist using the state-of-the-art, industry-standard recording facility that his success has afforded him to invest in, enabling him to produce material at his leisure, followed as an entertainer whose mission is to edify his listening audience with the music and his messages which are as genuine as they are true.

Scott Marshall & Marshall's Highway - a 4-8 piece act that's heavier in style, potency, and nature.

Driving beats and electric guitars dominate, yet the band's versatility is evident in their ballads and the mix of genres they present. The Rock/Country collision takes place here, but there's no bloodshed. It's a crash everyone seems to enjoy!

Scott Marshall & The Hillbilly Souls - a 3-6 piece acoustic act with a strong Appalachian feel. Instead of a collision, this is more of a Bluegrass/County hayride with a couple wild horses pullin' the wagon.

Shared Billings

On many occasions Scott Marshall and Co. have been asked to provide touring support for national acts, for their ability to increase or top off ticket sales and rouse a crowd, including: Zac Brown Band, Little Big Town, Jamey Johnson, Jimmy Wayne, Shooter Jennings, Tracey Lawrence, 38 Special, Trent Tomlinson, Keith Anderson, Phil Vassar...and many others
